TERRANOVA AGRO

# Hydroponic Tower with grow lights

# 9 LEVELS

**36 growing** spaces

Integrated **lighting system**

**Clean & smart** growing

**The smart, space-saving solution for growing fresh produce at home.** Perfect for balconies, backyards, and apartments, this 9-level hydroponic system uses up to 95% less water and features specialized grow lights that support photosynthesis and healthy plant growth. Grow lettuce, spinach, herbs, strawberries, and more, all year round, without soil and with minimal maintenance.

TERRANOVA

## Space-saving design
Smart 3D modular design, perfect for homes, balconies, and greenhouses.

## Higher yields, less water
Boost crop yields by up to 35% while saving up to 95% of water with an efficient closed-loop drip irrigation system.

## Clean & smart growing
Sistema sin tierra con circulación de agua automática y temporizador; mínimo mantenimiento.

## Safe & durable materials
Made from food-grade ABS/PP plastic. BPA-free, non-toxic, and built to last.

## High-efficiency pump
Keeps nutrient-rich water flowing continuously, preventing stagnation.

## Scalable modular design
Easy, tool-free assembly. Connect multiple towers to a shared water reservoir for larger commercial growing systems.

## What can you grow & where?
Grow fresh vegetables, herbs, and small fruits in compact spaces. Enjoy clean, pesticide-free growing on patios, balconies, or in apartments all year round.
